

AMENDMENTS TO THE CLAIMS

Claims 1-6 (cancelled)

Claim 7 (currently amended): An external skin patch, comprising a substrate and a drug reservoir layer coated on the substrate, in which the drug reservoir layer comprises (1) an adhesive gel base which comprises a water soluble polymeric material, a crosslinking agent, 20 to 60% by weight of water based upon the total weight of the adhesive gel base and a humectant as essential components, together with (2) medicinal components comprising a local anesthetic and a nonsteroidal antiphlogistic analgesic agent, wherein the crosslinking agent is selected from the group consisting of aluminum compounds, wherein the humectant is selected from the group consisting of polyhydric alcohols, saccharides and superabsorbent resins, wherein the local anesthetic is selected from the group consisting of tetracaine, procaine, dibucaine, lidocaine, benzocaine, xylocaine, and pharmaceutically acceptable salts thereof, and wherein the nonsteroidal antiphlogistic analgesic agent is selected from the group consisting indomethacin, ketoprofen, piroxicam, felbinac, bufexamac, suprofen, flurbiprofen, diclofenac, ibuprofen, and pharmaceutically acceptable salts thereof.

Claim 8 (previously presented): The external skin patch according to claim 7, wherein the local anesthetic is present in an amount of 0.1-50% by weight.

Claim 9 (previously presented): The external skin patch according to claim 7, wherein the nonsteroidal antiphlogistic analgesic agent is present in an amount of 0.05-10% by weight.

Claim 10 (new): The external skin patch according to claim 7, wherein the local anesthetic is selected from the group consisting of lidocaine, benzocaine and a pharmaceutically acceptable salt thereof.

Claim 11 (new): The external skin patch according to claim 7, wherein the nonsteroidal antiphlogistic analgesic agent is selected from the group consisting of indomethacin, ketoprofen, felbinac, flurbiprofen, diclofenac, and a pharmaceutically acceptable salt thereof.

Claim 12 (new): The external skin patch according to claim 7, wherein the local anesthetic is lidocaine or a pharmaceutically acceptable salt thereof, and the nonsteroidal antiphlogistic analgesic agent is diclofenac or a pharmaceutically acceptable salt thereof.
